## SUMMARY

---

I am an enthusiastic and dedicated individual with a strong ability to adapt to the ever-evolving technological landscape. I am eager to apply my academic background, knowledge and skills to contribute effectively in the field I work in. My eagerness to learn new tech content and dynamic teamwork is the strength that would help me grow and establish myself in the industry.

## WORK EXPERIENCE

---

### Amazon Web Services-Cloud Computing (APSSDC)

Jun 2023 - Aug 2023

Implemented AWS services, including EC2 and S3, to solve real-world problems. Gained practical experience in cloud architecture and deployment strategies..

## PROJECTS

---

### Plant Disease Recognition using Machine Learning And Deep Learning

Developed an automated system using CNNs to identify plant diseases from mobile photos. Applied transfer learning techniques to enhance model performance.

### Online Voting System Using Java

Built a user-friendly voting system with Java Swing, demonstrating GUI development skills.

### Python Helpdesk Using Python

ACreated a Python-based helpdesk system, showcasing proficiency in Python application development.

### Admission Management System in c++

Developed a console application to manage student admissions, highlighting C++ programming skills.

## EDUCATION

---

2021 - present	Bachelor's Degree at <b>SRM University(A.P)</b> CSE AI-ML	(GPA: 7.32/10.00)
2019-2021	Class 12th CBSE Board	(66)
2019	Class 10th CBSE Board	(68)

## CERTIFICATIONS AND ACHIEVEMENTS

---

Python [Link](#)

MySQL [Link](#)

## SKILLS

---

Technical Skills Java, C/C++, Python, DBMS, OPPs, Machine Learning, HTML, CSS, MySQL, React Js, AIML

Soft Skills Good Communication, Problem solving, Active listening, Adaptability, Creativity, Leadership, Time management, Team Leader, Complexity analysis, Quick Learner, Logical Thinking, Technological Knowledge
